

SECURITY WORKS

Technology Workstand 2095

Education Pricing - \$399

Benefits

Classroom Management

First AV Cart that allows teacher to face students and project to the rear or side

Security

Patent pending security for all equipment is designed for teacher's ease of use

Mobility

Move around classroom, or from class to class

Durability

All heavy gauge steel construction, and heavy duty soft roll casters

Cord Management

Six outlet surge protector, tucked away cords, 20 ft. cord to wall

This convenient workstand integrates laptop, projector, and document camera into an secure and easy-to-use cart. Easily deployable throughout the classroom or work environment, this cart is the perfect solution for mobilizing and securing today's new av equipment.

The unique circular base allows for a smaller footprint, allowing the cart to easily roll through tight spaces an ordinary cart could not fit. This cart is easily height adjustable and accommodates sitting and standing positions.

Features

- All steel construction, Workstand weighs 100 lbs.
- 23" diameter work surface & center shelf
