Create an energizing sound experience in your classroom! As class sizes increase, the VoxComm Portable PA provides a valuable asset to teachers. It produces high quality sound enhancement and comes with everything you need for classroom interaction. The System can be used with our 9095 or 2095 Workstand with Secure Mounting Bracket or be used as a stand alone unit .

VoxComm is Custom Designed to use with SecurityWorks' Line of Workstands.

Sound amplification is vitally important in today's classrooms, consider the following:

In many classrooms in the U.S., the speech intelligibility rating is 75 percent or less.

[Classroom Acoustics, Acoustical Society of America](#)

21% of teachers miss work due to problems with their voice.

[Voice Problems of Teachers, Daniel E. Philips, MA CC-SLP](#)

Teachers represent 4.2 percent of the U.S. workforce. However, this group constitutes almost 20 percent of the voice-clinic load, a five-fold disproportion.

[The Journal of Voice 11\(3\), 254-259](#)

9095-SE

2095-SE

Features:

- Advanced Infrared technology assures interference-free, eavesdrop-free transmissions
- Infrared is a safe and cost effective alternative to RF in multiple adjacent room applications.
- Compauder audio circuit improves signal to noise ratio and reduces background noise.
- Pilotone squelch mutes the receiver at standby stage.
- Excellent high fidelity and dynamic range - ideal for speech applications.
