Troxell brings together leading brands to offer a powerful bundle that saves schools money

Technology Workstand 2095EZR - Designed with secure mounting for document cameras, projectors, laptops and sound enhancement systems.

Projector - Troxell has a vast assortment of digital projectors available for purchase. Contact Troxell today to discuss what would be the most optimal projector to suit your needs.

Document Camera - Troxell can help you find a document camera that will be most suitable for your needs. Contact Troxell today for suggestions on a document camera.

eBeam Edge for Education - A compact and portable device that turns any whiteboard into an interactive whiteboard. Allows full control all of your computer's applications right from the board.

Compatible with any digital projector, large or small, any brightness and any resolution. The supplied eBeam Interact software makes the board interactive and is a powerful set of tools. Easy to use, easy to set up.

This equipment paired with SecurityWorks' Technology Workstand 2095EZR eliminates daily set-up, saves time, money and increases educational value. The 360° projector rotation allows teachers to face the classroom while teaching. Has 5 casters, two of which lock for added stability.

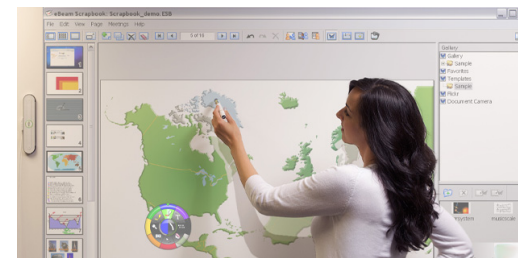

Height Adjustable: Use Seated or Standing
